

CenturyLink Availability Statement List (BMG)

Effective Date 12/12/11

911 Services Centurylink QC 911 services are available in AZ, CO, IA, ID, MN, MT, ND, NE, NM, OR, SD, UT, WA and WY.

Advanced Voice and Data Bundle: The CenturyLink QCC Advanced Voice and Data Bundle includes the **Integrated Access Package**, the **SIP Trunk IP-PBX Bundle**, or the **SIP Trunk IAD Bundle**, along with various enhancements such as **Conferencing**, **Email Defense** and **Managed Applications** (such as e-mail boxes, Fax Over E-Mail, and CenturyLink IQ™ Online Backup). Please see the availability statements for each of those services in this document. Some enhancements may be available to you at no additional charge, subject to limitations. Please contact your CenturyLink sales representative for details.

Analog Trunks: Analog Private Branch Exchange service is not provided on a one-way calling basis. Therefore, the customer must choose a combination of in-only, out-only or two-way trunks to meet their calling needs. Analog PBX trunks are available in all central offices in CenturyLink QC's local service territories.

Analog VoIP: CenturyLink QCC Analog VoIP is available to CenturyLink QCC business customers in select areas across the continental U.S. Minimum one-year term commitment required. Early termination charges may apply. Monthly charge based on configuration selected. Long-distance charges are additional. Listed rates do not include taxes, incremental charges and surcharges. Separately purchased or rented equipment and CenturyLink IQ™ Networking access compatible with the service are required. Other restrictions may apply. Call for availability and complete details. 911 service is governed by the terms of the Analog VoIP Service Exhibit.

Asynchronous Transfer Mode (ATM) Service Domestic: CenturyLink QCC domestic ATM service is directly connected to the CenturyLink QCC fiber network in the United States. Service may require CPE purchase and minimum term of commitment.

Business Protection Services: CenturyLink QCC Business Protection Services (BPS) is available to CenturyLink business customers in the domestic United States. Refer to availability statements on individual products to be deployed for specific CenturyLink BPS solutions.

Business Protection Services—Disaster Recovery: CenturyLinkQCC Business Protection Services—Disaster Recovery consists of three offerings. Availability varies, per offering. Your CenturyLink sales representative will keep you apprised of where the individual offerings are available. A contract is required. In addition to monthly recurring charges, other charges may apply. Additional restrictions may apply.

Business Voice Messaging Service (BVMS): CenturyLink QC Business Voice Messaging Service (BVMS) is available in CenturyLink QC's local service territories of AZ, CO, ID, IA, MN, MT, NE, NM, ND, OR, SD, UT, WA and WY for business customers.

Centrex 21: Centrex 21 is no longer available on new lines. Customers that had Centrex 21 in place as of April 10, 2005 may continue to use the service at the existing location only.

Centrex Management System (CMS): Centrex Management System (CMS) is generally available in 1AESS, 5ESS, and DMS-100 central offices where facilities permit. CMS is not available in the Ericsson (AXE), DMS 10, 2B, NEC (Eastern only), or 3ESS. CenturyLink QC cannot provide interLATA long-distance service originating, interLATA 8XX service terminating; or interLATA private line or data circuits with either end in the states of AZ, CO, ID, IA, MN, MT, NE, NM, ND, OR, SD, UT, WA, and WY.

Centrex Prime: Centrex Prime is a software-based service that interacts directly with the telephone system. Available to business customers within CenturyLink QC's local service territories of AZ, CO, IA, Southern ID, MN, MT, ND, NE, NM, OR, SD, UT, WA and WY where the central offices have compatible switch types. Availability of features and facilities depends on central office equipment and software programs. Contract termination charge may apply. Other restrictions and limitations may apply.

CenturyLink™ Connect: CenturyLink™ Connect customers in the United States may choose from a broad range of CenturyLink services, including Domestic and International Dedicated Voice Long Distance, Asynchronous Transfer Mode (ATM), Private Line, Frame Relay, Web Hosting, Internet Port (formerly DIA), Toll Free, Hosted IVR and CenturyLink IQ™ Networking. Minimum-one year term of commitment required and liability for early termination may apply. Monthly spend on domestic long distance, toll free, directory assistance, and Conferencing, after taxes are deducted, is used to calculate the sliding discount, if any, to be applied on the domestic interstate long distance and toll free. Listed rates for plans do not include taxes, incremental charges and surcharges such as USF, PIF, payphone and Operator Assistance charges, property tax surcharge and gross receipts tax surcharge as applicable. Additional equipment and installation charges may be required. Not available in all areas and availability varies by service selected. Call CenturyLink for availability and for additional details and restrictions.

CenturyLink IQ™ Networking: CenturyLink QCC CenturyLink IQ™ Networking solutions include a suite of WAN services and Internet connectivity with domestic and international availability dependent upon locations and services selected. Recurring fees vary based on services ordered. Additional equipment may be required.

CenturyLink IQ™ Networking (Domestic): CenturyLink QCC Domestic CenturyLink IQ™ Networking service is available throughout the 48 contiguous United States, Alaska, and Hawaii. These connections are within CenturyLink's AS-209 network and provide access to the CenturyLink OC-192 fiber network. Restrictions and limitations may apply.

CenturyLink IQ™ Networking Internet Port: Domestic and International: CenturyLink QCC CenturyLink IQ™ Networking Internet Port domestic service is available throughout the 48 contiguous United States, Alaska, and Hawaii. International service is available in Hong Kong, Tokyo, Singapore, Sydney, Frankfurt, and London. These domestic and international connections are within CenturyLink's AS-209 network and provide access to the CenturyLink OC-192 fiber network. For access outside of the locations listed above, CenturyLink IQ™ Networking Internet Port Service is available to U.S.-based customers' locations in Alaska and some U.S. territories, plus many international locations in over 69 countries in Europe, Asia, Canada and Latin America through CenturyLink's relationships with other global network carriers. Restrictions and limitations may apply.

CenturyLink IQ™ Networking Private Port: Domestic and International Service: CenturyLink QCC CenturyLink IQ™ Networking Private Port service is available domestically throughout the 48 contiguous United States and Hawaii, Alaska, and Puerto Rico. International on-net locations are in Hong Kong, Singapore, Sydney, Tokyo, Mumbai, Bangalore, Amsterdam, London, Frankfurt, Paris, and Mexico City. These connections are within CenturyLink's AS-209 private core network and provide access to the CenturyLink OC-192 fiber network. For access outside of the locations listed above, CenturyLink IQ™ Networking Private Port Service is available to U.S.-based customers' locations in Alaska and some U.S. territories, plus many international locations in over 69 countries in Europe, the Middle East, Asia, North America, Central America, the Caribbean, and South America through CenturyLink's relationships with other global network carriers. Restrictions and limitations may apply.

CenturyLink Loyal Advantage: Customers in the United States may use the CenturyLink QCC CenturyLink Loyal Advantage™ agreement for a broad range of CenturyLink services, including, but not limited to: Asynchronous Transfer Mode (ATM), Private Line, Frame Relay, Dedicated Hosting Collocation, CenturyLink IQ™ Networking, Managed VoIP, Analog VoIP, Toll Free, Long Distance Switched and Dedicated Voice, and Conferencing. Availability of these services varies by product.

CenturyLink Total Advantage: Customers in the United States may use the CenturyLink QCC CenturyLink Total Advantage™ agreement for a broad range of CenturyLink services, including, but not limited to: Asynchronous Transfer Mode (ATM), Private Line, Frame Relay, Dedicated Hosting Collocation, CenturyLink IQ™ Networking, Managed VoIP, Analog VoIP, Toll Free, Long Distance Switched and Dedicated Voice, and Conferencing. Availability of these services varies by product.

CO/ACD: CenturyLink QC CO/ACD is available, where tariffed in CenturyLink QC's local service territories, from DMS-100 central offices, and from three 5ESS central offices where Meridian ACD servers are in place (Minneapolis Downtown, St. Paul Market Street and Phoenix North).

Conferencing: CenturyLink QCC Conferencing is available to customers anywhere in the world, as long as they have a telephone, receive the bill in the United States, and pay in U.S. dollars. In the case of Web Conferencing, a computer and Internet access are necessary. Reservationless GlobalMeet Local Access calls will be carried by the customer's long-distance provider where applicable.

Core Connect®: The CenturyLink QC Core Connect Bundle includes CenturyLink™ High-Speed Internet, CenturyLink Choice™ Business Plus local service, and Unlimited Long Distance service. CenturyLink Choice™ Business Plus and Unlimited Long Distance are governed by the terms and conditions of the applicable state tariff. CenturyLink High-Speed Internet is governed by the Subscriber Agreement located at <http://qwest.centurylink.com/legal>. Prices and bundle components are subject to change. The Bundle is available only in Qwest Corporation (d/b/a CenturyLink QC) In-Region, in-franchise areas. Early termination charges may apply. Contact your CenturyLink sales representative for details.

Core Connect® Enterprise: The CenturyLink QCC Core Connect Enterprise Bundle includes the **Integrated Access Package**, the **SIP Trunk IAD Bundle**, or the **Data Bundle Standard or Pro (included under Data Bundle Solutions)** and the **SIP Trunk IP-PBX Bundle**, along with various **CenturyLink Managed Applications** enhancements such as e-mail boxes, Fax Over E-Mail, and CenturyLink IQ™ Online Backup. Please see the availability statements for each of those services in this document. Some enhancements may be available to you at no additional charge, subject to limitations. Please contact your CenturyLink sales representative for details.

CPE: CenturyLink General CPE Solutions: CenturyLink QCC CPE Solutions are available to business customers throughout the United States and consist of products from Cisco®, Nortel® and other manufacturers and services. Refer to CenturyLink™ Select Advantage® for specific terms and conditions including ProMET® service level agreements, if any. Access to the Internet or the PSTN may be required to complete the solution. IP Telephony requires quality of service (QoS) to ensure clear conversations. Best effort networks such as the Internet does not, and your network may not, support QoS. CenturyLink™ VoIP Readiness Service will validate QoS. Access to 911/E911 for remote or mobile VoIP users is subject to availability and the terms and conditions of the agreement for VoIP services. Prices vary depending on CPE Solution selected. All trademarks are the property of their respective companies.

CPE Enterprise Networking: CenturyLink QCC CPE Solutions consist of Cisco®, Nortel® and other manufacturer's products and CenturyLink's services available in select locations nationwide. Refer to CenturyLink™ Select Advantage® for specific terms and conditions for CPE Solutions including ProMET® service level agreement offerings. Access to the Internet or the PSTN may be required to complete the Solution. IP Telephony requires quality of service (QoS) to ensure clear conversations. Best effort networks such as the Internet does not, and your network may not support QoS. CenturyLink™ VoIP Readiness Service will validate QoS. Access to 911/E911 for remote or mobile VoIP users is subject to availability and the terms and conditions of the agreement for VoIP services. All trademarks are property of their respective companies.

CPE: Data CPE Solution: CenturyLink QCC CPE Solutions for Enterprise Networking are available to business customers throughout the United States and consist of products from ADTRAN®, Cisco®, Juniper Networks and Nortel® and services. Refer to CenturyLink™ Select Advantage® for specific terms and conditions for CPE Solutions including ProMET® Service Level Agreements, if any. Prices vary depending on CPE Solution selected. All trademarks are the property of their respective companies.

CPE: ProMET® Services CPE Solution: ProMET® services are available to business customers throughout the United States. Refer to CenturyLink™ Select Advantage® for specific terms and conditions including ProMET® Service Level Agreements. Prices vary depending on CPE Solution selected. All trademarks are the property of their respective companies.

Refer to CenturyLink™ Select Advantage® for specific terms and conditions for CPE Solutions including ProMET® Service Level Agreements. Access to the Internet or the PSTN is required to complete the Solution. IP Telephony requires Quality of Service (QoS) to ensure clear conversations. Best effort networks such as the Internet does not, and your network may not, support QoS. CenturyLink™ VoIP Readiness Service will validate QoS. Access to 911/E911 for remote or mobile VoIP users is subject to availability and the terms and conditions of the agreement for VoIP services. Prices vary depending on CPE Solution selected. All trademarks are the property of their respective companies.

CPE: Rental CPE: CenturyLink QCC Rental CPE is available throughout the U.S. and must be ordered in conjunction with either domestic CenturyLink™ Networking, Analog VoIP, Integrated Access Package, Managed VoIP, Managed VoIP Bundle Services, SIP Trunk bundles, or Managed Security Service under Managed Services.

Data Bundle Solutions: CenturyLink QCC CenturyLink IQ™ Data Bundle Standard and CenturyLink IQ™ Data Bundle Pro include domestic CenturyLink IQ™ Networking service, Local Access service, and Rental CPE Service. Data Bundle Solutions require a minimum two-or three-year minimum term commitment, and special early termination charges apply. Some features are subject to availability, a 3-year minimum term requirement, and/or a specific port type. Other restrictions and rules may apply. Call for availability and complete details.

DDoS Mitigation. CenturyLink QCC DDoS Mitigation service is available throughout the 48 contiguous United States and Hawaii, and is only available if the customer's traffic terminates on a domestic CenturyLink IQ™ Networking Internet Port. Term commitment required. Restrictions and limitations may apply. Please call your sales representative for complete details.

Delta Port™ Service: The CenturyLink QCC CenturyLink IQ™ Delta Port™ service includes Rental CPE Service, Local Access service, and optional domestic CenturyLink IQ™ Networking service. Offer requires a minimum two-or three-year minimum term commitment and special early termination charges apply. The CenturyLink IQ™ Delta Port™ offer is limited to qualified locations within CenturyLink's 14-state local service territory in Arizona, Colorado, Idaho, Iowa, Minnesota, Montana, Nebraska, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming. Service is subject to availability. Not available in all areas. Local Access speeds may vary depending on location. Other restrictions and rules may apply. Call for availability and complete details.

Digital Switched Services (DSS): CenturyLink QC Digital Switched Service (DSS) is available only in the CenturyLink QC's local service territories of AZ, CO, IA, ID, MN, MT, ND, NE, NM, OR, SD, UT, WA and WY. A minimum term of commitment is required. Specific CPE is required and may be purchased through CenturyLink or a third-party vendor.

Direct Inward Dialing (DID): Direct Inward Dialing (DID) may be provided where central office facilities are available and the PBX system or customer-provided switching equipment capabilities permit. DID is available in all CenturyLink QC central offices.

Directory Assistance: CenturyLink Large Business Directory Assistance is available nationwide to most CenturyLink business customers. Minimum one-year term of commitment, one-time setup fee and minimum 55,000 call-per-month volume required. Call defined as call completion to Directory Assistance representative. Pricing determined by commitment level.

Domestic Network Diversity Service: CenturyLink QCC Domestic Network Diversity Service® is an optional routing enhancement for the following services: Asynchronous Transfer Mode (ATM), Dedicated Domestic Outbound/Inbound Long Distance, Domestic Frame Relay, Domestic Private Line, CenturyLink IQ™ Networking, Local Access, EPL and Optical Wavelength Service. Availability depends on underlying services selected and is not available outside the continental U.S. Recurring fees for diversity service vary depending on speed selected. Other restrictions and limitations may apply. Complete terms provided in service exhibit.

E-Line Service: CenturyLink QCC E-Line service is available in the domestic U.S., subject to facilities availability. Term commitment required. Additional equipment may be needed to terminate circuits. Installation, expedite, local access, and extended wiring charges may apply.

Email Defense and Web Defense: CenturyLink QCC Email Defense Service and Web Defense Service are available in the U.S. and many international locations. Customer must verify with CenturyLink the availability of the Services in Customer's desired international locations. Minimum one-year commitment required. An Internet connection through an Internet service provider is required and may be acquired from CenturyLink or another provider of your choice. CenturyLink cannot guarantee all spam, viruses or offensive e-mails will be filtered.

EPL Domestic: CenturyLink QCC Domestic EPL service is available to CenturyLink QCC business customers in the contiguous U.S. states, subject to availability of facilities. Synchronous optical network (SONET) equipment needed to terminate circuits. Only on-net

EPL circuits are offered today because of proprietary Ethernet mapping protocol requirements. Installation, expedite, Ethernet local access and extended wiring charges may apply.
