

# CenturyLink Connect

## Competitive rates for high-volume customers

CenturyLink™ Connect is a domestic long-distance and toll-free voice offering tailored to the needs of customers with high-volume calling requirements such as those with call centers. This solution offers you competitive long-distance interstate rates and billing increments based on your domestic long distance, toll free, directory assistance and/or conferencing usage charges each month.

### Qualifications

- To be eligible for CenturyLink™ Connect, you must have minimum monthly spending of \$5,000 on domestic long distance and toll free; to remain in the program, you must maintain a monthly spending level of \$5,000 or more on all contributing services
- Only certain types of companies are eligible for this program; eligible companies include: broadcast fax and voice companies, satellite broadcast companies, voicemail companies, audio conferencing providers, payphone applications providers, Internet services providers (that are not rebranding services) and telemarketers with outbound call centers

### Benefits

- Competitive domestic, interstate long-distance and toll-free rates
- Domestic voice billing increments of 6/6
- Domestic long-distance and toll-free bulk rounding
- Unique pricing per local access and transport area
- Multiple CenturyLink products contribute to the monthly minimum spending level
- Available across the nation and around the world, with meet-points in more than 200 international cities (contact your CenturyLink sales representative for individual service availability)
