

Message Notification

Your Voice Mail service includes the optional Message Notification feature.

How Message Notification works

When you need to know right away if you have a new message, Message Notification can:

- Display 11111 or 77777 on your PAGER (depending on the pager type)
-or-
- Ring any local PHONE number, at your home, another number, or even a wireless phone. When you answer, press **2** and enter your password, then your new message(s) will play.

We suggest that you use your Personal Greeting to tell callers that you'll be notified when they leave a message.

How to set up Message Notification

- Call your voice mailbox.
- From the Main Menu, press **4** Mailbox Options.
- Press **1** Notification Options.
- Press **5** to set up your schedule.
- Enter your pager or local phone number.
1 Keep this number **2** Change it
- Decide how soon you're notified after a message is left:
1 **2** **3** **4** **5** **6**
Immediate 1 hour 2 hours 4 hours 1 day Never

You'll only be able to enter the number of whatever device you told us you were going to use for notification. If you ordered telephone notification, and you try to enter a pager number instead (or vice versa), the service won't work. Call us at 1 866-450-6152 if you need to make a change. Pager numbers can be local, 1-800, or 1-888.

Now turn ON Message Notification

- From the Main Menu, press **4** Mailbox Options.
- Press **1** Turn Notification ON or OFF.
3 Turn Notification ON
4 Turn Notification OFF

To temporarily turn OFF Message Notification

If there's a time when you don't want to be disturbed by a pager or ringing phone, follow the steps above to turn Message Notification OFF. Remember to turn it back ON when you want to use it again.
